

Amendments to the Claims

Please replace all prior versions, and listings, of claims in the application with the following list of claims:

1. (Currently Amended) A method for managing medical care of multiple clients outside of a medical facility, comprising the steps of:

accepting ~~reservations~~ reservation information from ~~at least two~~ clients;

based on said reservation information, determining that a plurality of the clients have a reservation period within the same temporal range and a reservation location within the same geographic range;

bundling the plurality of clients having a reservation period and located in a close geographic location into a quantum bundle, wherein the step of bundling comprises limiting the accommodations available to at least one of the plurality of clients to an accommodation reserved for at least one other client of the plurality of clients;

providing, for the bundle of clients, an accommodation outside of [[a]] at least one medical facility ~~for each bundle of clients~~;

providing clinical services to the bundle of clients while they reside at the accommodation.

2. (Original) The method as claimed in claim 1, wherein the reservation period for each client in the bundle of clients is overlapping in time.

3. (Original) The method as claimed in claim 1, further comprising the step of providing concierge services.

4. (Original) The method as claimed in claim 3, wherein the step of providing concierge services includes providing transportation to the accommodation from a medical facility.

5. (Original) The method as claimed in claim 3, wherein the step of providing the concierge services includes providing medical travel escorts.
6. (Original) The method as claimed in claim 3, wherein the step of providing the concierge services includes providing vehicle travel reservations.
7. (Original) The method as claimed in claim 3, further comprising the step of coordinating billing of the concierge services to the bundle of clients.
8. (Original) The method as claimed in claim 1, further comprising the step of providing a default treatment protocol for at least one client.
9. (Original) The method as claimed in claim 8, further comprising the step of modifying the default treatment protocol in response to a medical status of the client.
10. (Original) The method as claimed in claim 1, further comprising the step of coordinating billing of the accommodation to the bundle of clients.
11. (Original) The method as claimed in claim 1, further comprising the step of coordinating billing of the clinical services to the bundle of clients.
12. (Original) The method as claimed in claim 1, wherein the step of providing clinical services includes providing at least one duty nurse servicing a bundle of clients in the bundle accommodation.
13. (Original) The method as claimed in claim 1, further comprising restocking a central supply of materiel in response to the clinical services provided.
14. (Original) The method as claimed in claim 1, further comprising the step of recording medical status information of the client in an electronic database.

15. (Original) The method as claimed in claim 14, further comprising the step of providing access to the medical status information to a physician having responsibility to the client.
16. (Original) The method as claimed in claim 14, further comprising the step of providing access to the medical status information to a third party provider of the client.
17. (Original) The method as claimed in claim 1, wherein the accommodation is a short-term guest based accommodation.
18. (Original) The method as claimed in claim 17, wherein the step of providing the accommodation includes modifying a standard hotel room for the client.
19. (Original) The method as claimed in claim 1, wherein the step of providing clinical services includes providing rehabilitation therapy services in a facility of the accommodation.
- 20.-63. Cancelled
64. (New) The method of claim 1, wherein the step of bundling comprises:
selecting a number of patients for the quantum bundle based on a capacity of services and/or service providers, said capacity being less than a capacity of the accommodation.
65. (New) The method of claim 1, wherein the step of bundling comprises:
allowing a first client in the quantum bundle to select the accommodation from available accommodations; and
assigning each subsequent client in the quantum bundle to the accommodation selected by the first client.
66. (New) The method of claim 1, wherein treatment is received by the plurality of clients at the at least one medical facility, and wherein the at least one medical facility is within the geographic range.

67. (New) The method of claim 1, wherein the step of bundling comprises selecting the accommodations for at least one of the plurality of clients based on an accommodation selected by at least one other client of the plurality of clients.
